

## **Study Director – i2L Research Ltd (Cardiff – UK)**

**Organisation profile:** i2L Research Ltd are a leading provider of scientific services and technical support to the pest control & agrochemical industry. Owing to the continued growth of our organisation, we are excited to advertise for the position of a **Study Director** to join our team of scientists in Cardiff.

**The role will involve:** undertaking a broad range of scientific trials, in order to evaluate the efficacy of public health and agrochemical pest control products. Ideally, we want to hear from candidates with previous entomological & practical laboratory experience. The ideal candidate will have a keen interest to pursue a career in insect research.

### **Responsibilities will include:**

- Directing research trials relating to public health and agrochemical pest control products.
- Data analysis, interpretation & Scientific report writing
- Developing and maintaining client relationships
- Maintaining good study records
- Following company Standard Operating Procedures (SOPs) & study protocols / study plans.
- Operating within a GLP (Good Laboratory Practice) framework
- Other laboratory duties as required (supporting the set up and running of other biological trials around the facility)

### **Skills required**

- A degree in a relevant scientific field **Life science, Bio-chemistry or related field**
- Previous experience working within a laboratory setting is essential
- Good level of computer literacy is expected (Excel, MS packages)
- Good knowledge of the EU/GB Biocidal Products Regulations PT18/19 guidelines and GLP framework would be advantageous
- Motivated individual with the ability to self-manage
- UK driving license is preferred but not essential

### **Additional information**

Place of work: i2L Research, Unit 9-12 Capital Business Park, Cardiff CF3 2PX

Hours: Full time, 35 hours per week

Duration: Permanent, subject to a 3-month Probation period

**This position does not allow for remote working.**
