

Summer Internship Opportunity: Entomology Technician Intern at Omma

Location: Aldgate, London, UK

Duration: Summer Internship with potential for full-time hire

About Us:

Omma is transforming agricultural pest management with AI-powered insect rearing systems. Our innovative technology automates the growth and health monitoring of beneficial insects directly on farms, reducing reliance on harmful chemical pesticides. By integrating AI and computer vision, we enable farmers to produce their own beneficial insects with minimal labor and expertise.

Role Description:

We are seeking an Entomology Technician Intern to join our dynamic team for the summer. This role offers a unique opportunity to work in a fast-paced start-up environment, gaining hands-on experience in deep tech and sustainable agriculture. As an intern, you will be involved in:

- Insect Rearing: Assist in the breeding and maintenance of beneficial insects.
- Device Testing: Participate in testing our AI-powered rearing devices.
- Optimising Rearing Protocols: Help refine and improve our insect rearing techniques.
- Field Work: Support the installation and monitoring of pilot devices with local growers.
- Research and Development: Contribute to ongoing R&D projects aimed at enhancing our technology and methodologies.

Qualifications:

- Currently enrolled in or recently graduated from a Life Sciences program, preferably with a focus on Entomology, Biology, Agriculture, or a related field.
- An adaptable, hands-on individual, prepared to tackle a variety of tasks.
- Strong interest in entomology and sustainable agricultural practices.
- Experience with insect rearing or lab work is a plus.
- Excellent problem-solving skills and a proactive attitude.

What We Offer:

- A competitive salary.
- A unique opportunity to work at the intersection of technology and agriculture.
- Exposure to innovative AI-powered solutions and sustainable farming practices.
- Mentorship and guidance from experienced professionals in the field.

How to Apply:

Interested candidates should send their CV and a brief blurb on why they are right for the role to james@omma.bio
